

TSUGAMI
Rem Sales, LLC

CORPORATE PROFILE

SPEED · ACCURACY · RIGIDITY

World's #1 Builder of Small Part Turning Solutions

PRECISION TSUGAMI

#1 Swiss-Style Builder in the World

TSUGAMI is recognized worldwide for superior precision machine tools specializing in manufacturing small parts. CNC Automatic Lathes, including Opposed Gang Tool Lathes, Gang/Turret Lathes, Multifunction Machines are the core products imported by Rem Sales. These high-precision machine tools are used to make precision parts up to 65 mm in diameter for the medical, aerospace, defense, and automotive industries.

LEGACY OF INNOVATION

Rem Sales is the Exclusive Source for Precision Tsugami Machine Tools in North America

Tsugami is a significant stakeholder of Rem Sales - Partners for life!

Tsugami/Rem Sales provides machine tools and engineering expertise through an extensive network of authorized distributors and technical centers. We offer technical support and customer service throughout North America. Our distributors' trained service personnel provide technical support throughout the long life cycle of our Tsugami machine tools, and work hand-in-hand with Tsugami/Rem Sales engineers to deliver commonsense solutions to everyday problems.

Tsugami/Rem Sales has received ISO 9001:2015 Certification Quality Management System (QMS) through American Systems Registrar (ASR), an ANSI National Accreditation Board (ANAB) accredited registrar.

Rem Sales Technical Centers

Demonstrations, training, and turnkeys are available at all technical centers.

Capability. Flexibility. Reliability.

Engineering

Tsugami/Rem Sales engineers are recognized industry wide as the acknowledged experts in manufacturing small parts. With over 300 staff years of experience, our engineers relish the challenge of helping you utilize Tsugami's wide range of CNC Machine Tools to produce superior parts, faster and for less. Rem Sales engineers show you how easy it is to make small parts, profitably, and will work with you every step of the way. We'll help you produce your part to print, optimize your cycle time and pick the right machine and accessories for your budget.

Service

Keep your Tsugami CNC Machine Tools optimized with the support of our authorized Tsugami/ Rem Sales distributors and factory trained service technicians. In addition to prompt service, our technicians also perform preventive maintenance services to ensure your Tsugami CNC Machine Tools exceed your productivity requirements.

Training

Rem Sales offers training classes to new and existing customers. Our operator training seminars are designed to help you maximize your investment in a Tsugami CNC Machine Tool. In addition to operator training, we offer preventative maintenance training classes to keep your Tsugami a peak performance. Training is scheduled throughout the year at various locations.

MultiFunction Machines Solutions

Complex jobs don't have to require complex solutions. The Tsugami MultiFunction platforms are designed to manufacture parts complete in one operation. The MultiFunction solution increases throughput and accuracy, while reducing the opportunity for scrap and work in process (WIP).

VERSATILE

Work on up-to 9 Axis, perfect for low volume, high mix or to use as a production workhorse

PREDICTABLE

From comprehensive calibration to thermal stability, consistency is key

ROBUST

Heavy and rigid yet most compact machines in their class

EQUIPPED

Machines configured with premium features as standard and process specific customization is limitless

RELIABLE

The Tsugami team provides the best customer experience, from hands on training to localized support with our national distribution network

TMA8F

MultiFunction Mill-Turn Center

- Tool spindle speed of 20,000 RPM with B-axis
- 2.5" Through-bore
- 60-tool magazine ATC
- 5-axis capability
- Compact Footprint

SS38MH-5AX

MultiFunction Mill-Turn Center

- Tool spindle speed of 20,000 RPM with B-axis
- Chucker-convertible
- Back tool post with Y-axis
- 40-tool magazine ATC
- 5-axis capability

TMU1R

MultiFunction Mill-Turn Center

- Tool spindle speed of 10,000 RPM with B-axis
- 16 station turret
- 60-tool magazine ATC

Unlock The Machining Potential Of Tsugami

Our sister company, the Innovative Machinery Group integrates Tsugami machines with robotics, laser cutting systems, loaders, unloaders and custom tooling & accessories.

The Innovative Machinery Group specializes in integrating robotic and mechanical loading and unloading systems so you can machine nontraditional Swiss parts within a small footprint.

Together we have teamed up to bring you the world's leading LaserSwiss machine!

The Make Ready Department at Innovative Machinery Group (IMG) is an ISO 9001:2015 Registered company, created with the sole purpose of providing fully customized Tsugami machines to the end-user customers of Rem Sales and its distribution. Each machine undergoes a comprehensive quality check performed by using a system that focuses on standardization, documentation and continuous improvement.

Innovative Machinery Group

Make Ready Facility

Machining Solutions Since 1941

Morris Group, Inc. is a third generation, family owned and operated business that supplies CNC machine tools, tooling, accessories and related technology to manufacturers.

Tsugami/Rem Sales is one of 17 independently operated Morris Group, Inc. business units servicing the North American markets. Morris distributor divisions serve customers in the eastern half of the United States and collectively form one of the largest machine tool distribution networks in North America. Founded in 1941, Morris Group, Inc. is distinguished by its reputation for excellent customer service, longtime partnerships with leading builders, and financial strength.

Since 1978, Tsugami/Rem Sales has been the exclusive source for Precision Tsugami CNC machine tools in North America. Headquartered in Windsor, CT, Tsugami/Rem Sales provides machine tools and engineering expertise through an extensive network of authorized distributors and technical centers. Technical support and customer service are available throughout North America. Our distributors' trained service personnel provide technical support throughout the long life-cycle of our Tsugami machine tools, and work hand-in-hand with Tsugami/Rem Sales engineers to deliver common-sense solutions to everyday problems.

Our application engineers help customers tackle and solve the toughest high-precision manufacturing challenges, on-time and on-budget. We have a 35-year history and reputation of serving the needs of small parts manufacturers in North America with the highest level of expertise and customer care. Our industry-respected, knowledgeable staff is comprised of both long-time employees and fresh faces all who share a commitment to provide you, our customers, with the competitive advantage to "do more with less" every day.
